Manufacturer of all type Corrugated Boxes for Industrial, E-Commerce & other all purpose

ABOUT US

Our foundation was laid in 2015 with the establishment of a corrugated box manufacturing unit in Tumkur, equipped with manual machines. In our initial phase, we recorded an annual turnover of ₹ 50 lakhs with a production capacity of 600 tonnes, supported by a team of over 15 workers. Today, we have scaled up significantly, operating from a self-rented 5,000 sq. ft. manufacturing facility along with a 1,000 sq. ft. raw material storage area in Anjanapura, Bangalore.
